**Premium Synthetic**

**All-Purpose  
Lubricant Penetrant**

**#1 Enemy of Rust! #1 in Lubrication!**

- Lubricates as it penetrates
- Penetrates corrosion
- Displaces water
- Lubricates with a protective film
- Frees sticky mechanisms

## **SYNTHETIC NO-SKWEEK™ PENETRATING LUBRICANT**

*with*

**Micro Lubrication Technology MLT®**

### **Benefits:**

- Penetrates Rust and Corrosion
- Lasting Lubricant
- Loosens Sticky Mechanisms
- Lubricates as it Penetrates
- Displaces Moisture
- Cleans and Retards Electrical Corrosion
- Treats and Maintains Metal Cutting Edges
- 1001 Uses as Lubricating Penetrant

### **Application:**

- Household Applications
- Automotive and Garage
- Drill Bits and Taps
- Electric and Air Tools
- Electrical Contacts
- Rusted Bolts
- Bicycle Chains and Components

*No-Skweek™* is a synthetic multi-purpose household penetrating lubricant with patent pending **Micro Lubrication Technology (MLT)™**. *No-Skweek™* is the most advanced multi-purpose penetrating lubricant in the market. *No-Skweek™* was formulated to work in the most extreme conditions to quickly penetrate rust and corrosion while providing a protective barrier of lubricant. *No-Skweek™* has 1001 applications around the home and garage. *No-Skweek™* will penetrate rusted bolts, while lubricating everything from hinges, toys, clippers and bicycles, to protecting surfaces of garden tools. *No-Skweek™*, with its high dielectric strength, can be used to clean electrical contacts, such as battery terminals to prevent oxidation and corrosion. *No-Skweek™* is gentle enough to be used around the home, garage, vehicles, boats, sticky mechanisms, tools and anywhere corrosion is a problem and lubrication is required to make life easier. It is orange scented.

**#1 ENEMY OF RUST and #1 in LUBRICATION!**
